REPORT OF INDEPENDENT ACCOUNTANTS

To the Participants and Administrative Committee of The Scotts Company Retirement Savings Plan

In our opinion, the accompanying statements of net assets available for benefits and the related statements of changes in net assets available for benefits present fairly, in all material respects, the net assets available for benefits of The Scotts Company Retirement Savings Plan (the "Plan") as of December 31, 2000 and 1999, and the changes in net assets available for benefits for the years then ended in conformity with accounting principles generally accepted in the United States of America. These financial statements are the responsibility of the Plan's management; our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits of these statements in accordance with auditing standards generally accepted in the United States of America which require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2000 AND 1999

1. PLAN DESCRIPTION

The plan is a contributory defined contribution benefit plan sponsored by The Scotts Company. The following brief description of The Scotts Company (the Company) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of Plan provisions, such as eligibility, vesting, allocation and funding.

ELIGIBILITY

Regular domestic employees of the Company are eligible to participate in the Plan on the first day of the month immediately following or coincident with their date of employment. Regular employees of Scotts Lawn Service, a subsidiary of the Company, are eligible to receive base retirement contributions on the first day of the month after completing one year of eligibility service and are eligible to make contributions and receive matching contributions on the first day of the month after completing 90 days of service prior to January 1, 2001 (60 days of service after January 1, 2001). Temporary employees are eligible to participate on the January 1 or July 1 subsequent to completing one year of eligibility service and attaining age 21.

EMPLOYEE CONTRIBUTIONS

The Plan provides for participants to make pre-tax or after-tax contributions up to 15% of eligible wages, not to exceed the annual Internal Revenue Service (IRS) maximum deferral amount.

EMPLOYER CONTRIBUTIONS

The Plan provides a base retirement contribution for all eligible employees. Generally, eligible employees receive an allocation equal to 2% of monthly compensation. This percentage increases to 4% when employees' year-to-date compensation exceeds 50% of the social security taxable wage base. The Company also matches participant pre-tax contributions dollar for dollar for the first 3% of pay, and matches \$0.50 on the dollar for the next 2% of participant pre-tax contributions. Additionally, the Company remits transition contributions to certain participants who were also participants of certain retirement plans previously sponsored by The Scotts Company or its subsidiaries.

VESTING

Participants are immediately vested in their contributions plus actual earnings thereon. Matching contributions made by the Company vest immediately. However, base and transitional contributions made by the Company vest after three years of service, or upon attaining age 65 prior to terminating employment.

FORFEITURES

The nonvested portions of participant account balances are forfeitable and used to reduce employer contributions to the Plan. Plan forfeitures totaled \$579,486 for the year ended December 31, 2000.

INVESTMENTS

All investments are participant-directed. Participants can change their investment options on a daily basis. The following investment options are available to participants:

NOTES TO FINANCIAL STATEMENTS DECEMBER 31, 2000 AND 1999

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles.

TNVFSTMFNTS

Excluding participant loans, investments are stated at quoted market prices. Participants' loans are valued at cost, which approximates fair value.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in the fair value of its investments, which consists of the realized gains or losses and the unrealized appreciation (depreciation) on those investments. Gains and losses on sales of investments are based on the average cost method.

Net appreciation in fair value for each significant class of investments for the year ended December 31, 1999 is as follows:

1999

Mutual funds	\$ 9,949,037
The Scotts Company Common Shares	530,711
Total net appreciation	\$10,479,748 ========

ADMINISTRATIVE EXPENSES

The Company pays for all administrative fees except those that are participant specific, such as loan establishment and maintenance fees.

PAYMENTS OF BENEFITS

Benefits are recorded when paid.

USE OF ESTIMATES

The preparation of the Plan's financial statements in conformity with generally accepted accounting principles requires the Plan to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements, changes in net assets available for benefits during the reporting period and, when applicable, disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

RISKS AND UNCERTAINTIES

The Plan provides for various investment options, which are subject to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

Each plan's accounting is maintained separately; the respective plan's value is a percentage of the master trust. Plan activities, such as contributions and benefit payments, are recorded in the individual plan's accounting records.

Net earnings of the master trust are allocated between the plans based on a weighted average of assets related to each plan. Total net earnings for the master trust for the year ended December 31, 2000 are as follows:

The Plan has been amended since receiving the determination letter; however, the plan administrator and the Plan's legal counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code, and is therefore not subject to income taxes.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan or its contributions subject to the provisions of the Employee Retirement Income Security Act of 1974.
